## Conversor CC-CC - Boost 24V para 311V - 0,3A

# 1. Alimentação 15 a 30 V para 12 V

# 2. Onda dente de serra, F ≈ 13,33kHz

4. Proteção PWM e acionamento MOSFET

5. Boost 24V para 311V - 0,3A

# 3. Comparador — Amplificação — PWM — duty 0 até 73%

6. Controlador tipo II

## 7. LM358 Alimentação e proteção OP-AMP não usado
